Fraud Alert for members!

FRAUD ALERT FOR MEMBERS: Please be aware that scams and fraud targeted towards members of NAECU are at their highest levels ever. All institutions are experiencing a considerable increase in scam activity. A recent fraud presentation by the Alabama Securities Commission revealed that over 50% of all scams are being generated with the assistance of Artificial Intelligence (AI). There are specific fraud AI tools like FraudGPT and WormGPT that are designed to create fake communications. Text messages, calls, emails, videos, and web sites can be faked to look like whatever the scammer wants you to believe.

Common scam signs are;

Being asked to take cash to a Cryptocurrency Kiosk ATM.

Being asked to buy gift cards and provide the gift card numbers/codes.

Being asked to send funds via CashApp, Venmo, or other methods to people you do not know.

Being asked to allow access to your home banking login credentials and providing authentication codes for logins to a third party. (NEVER do this!).

Being asked to wire funds on a great investment opportunity without fully researching the company and people involved. (Especially crypto purchases).

Being asked for your full card information on your debit or credit card by an unsolicited contact. (We will never ask you for your full card # and secure code on the back of the card).

The list of scam scenarios is far and wide, but most scammers will steal your money using these requests. Do not let fear, intimidation, or greed cloud your judgement. With AI in play these days, trust nothing and independently verify using phone numbers that you can locate yourself. Feel free to contact credit union management on any concerns that arise.
